SUMMARY

Final-year Computer Science student at Universitas Jenderal Soedirman (GPA 3.73/4.00) with hands-on experience in UI/UX design, data analysis, and digital product development. Proficient in Figma, data processing, and cross-functional collaboration through 5+ academic and real-world projects, including a UI/UX internship at Pertamina. Seeking a final-year internship to apply design thinking and technical skills in a professional product team.

EDUCATION

Bachelor of Computer Science

Aug 2023 - Present

Jenderal Soedirman University, Faculty of Engineering

Aug 2023 – Present

- GPA: 3.73 / 4.00
- Relevant Coursework: Human-Computer Interaction, Database Systems, Software Engineering, Data Structures

EXPERIENCE

UI/UX Designer Intern

Juni 2025 - Agustus 2025

Fungsi IT RU IV, Kilang Pertamina Internasional

- Designed UI/UX for an IT service monitoring dashboard based on user research and operational efficiency needs
- Collaborated with developers and IT staff to improve system usability across 3+ internal tools
- Delivered data visualization mockups that supported daily monitoring operations

PROJECTS

Dreamday Planner – Wedding Organizer Application

2024

UI/UX Designer

- Designed a user-friendly interface for order, scheduling, and event management features
- Conducted usability testing with 5 target users to refine flows and improve task completion rate

House Price Prediction in Tebet

2024

Researcher & Developer

- Processed and cleaned a dataset of 1,000+ property listings using Python (Pandas, NumPy)
- Built a regression-based prediction model focused on data accuracy and reproducibility

NBA Training Camp App

2024

UI/UX Designer

- Designed an intuitive registration and user interaction interface in Figma
- Created a design system with reusable components to speed up handoff

HitTix – Concert Ticket Booking Platform

2024

UI/UX Designer

- Designed an intuitive ticket browsing, event detail, and booking flow for a web-based concert ticketing platform
- Collaborated on system analysis, database design, and backend integration (PHP & MySQL)

UI/UX Designer

- Designed a web-based information system for community healthcare admin, participant registration, service queues, and health data recording
- Contributed to system design, feature development, and data management to improve operational efficiency and service delivery

ORGANIZATION EXPERIENCE

Public Relation (Humas)

2026

Volunteer Purwokerto

- Managed external communications and community engagement for volunteer programs
- Coordinated public outreach activities and maintained relationships with local stakeholders
- Assisted in promoting social initiatives and strengthening organizational partnerships

Chairman of Dies Natalis Informatics

2025

Faculty of Engineering, Universitas Jenderal Soedirman

- Led end-to-end event planning across 6 divisions and 40+ committee members
- Managed timelines, resources, and budgets to ensure successful event execution
- Coordinated cross-functional teams to deliver programs on schedule and achieve organizational objectives

Digital Marketing

2025

Smartani Greenhouse IoT Monitoring

- Managed social media content strategy and digital promotion across Instagram and TikTok
- Increased audience engagement through consistent and targeted content creation
- Assisted in building brand awareness and online visibility for the project

Tracer Study Surveyor Team

2025

Faculty of Engineering, Universitas Jenderal Soedirman

- Collected and verified alumni career outcome data through tracer study surveys
- Communicated with graduates to ensure accurate and reliable data collection
- Supported faculty evaluation, graduate employability assessment, and accreditation reporting processes

Staff of Data Analysis and Research Division

2024

BEM Unsoed

- Collected and analyzed organizational data to support program decision-making
- Contributed research-based insights for internal strategic projects
- Collaborated with team members in preparing reports and data-driven recommendations

Internship

2023

BEM Unsoed

- Gained foundational experience in organizational operations and student leadership
- Supported departmental initiatives and collaborated with cross-functional teams
- Assisted in the planning and execution of organizational activities and programs

SKILL

Figma, Adobe XD, Canva, Python (Pandas, NumPy), SQL, Microsoft Excel, Google Sheets, UI/UX Design, User Research, Wireframing, Prototyping, Data Analysis, Digital Marketing, Social Media Management, Microsoft Office
